MWANZA MUMBA

Computer Science Graduand

PROFILE

Detail-oriented Computer Science Graduand with a solid foundation in hardware, operating systems, networking principles, relational database design, SQL, and data modelling. Experienced in developing intuitive user interfaces through human-computer interaction methodologies. Adept at collaborating with cross-functional teams to deliver practical software solutions. Committed to continuous learning and leveraging technical expertise to drive innovation and improve software development outcomes.

EDUCATION

BSc Computer Science | Aug 2022 – Jul 2026
Mulungushi University, Kabwe

- Studied computer systems architecture including hardware components, operating systems, and networking fundamentals.
- Applied theoretical knowledge in designing and implementing software solutions through practical group projects.
- Designed relational databases, wrote SQL queries, and modelled data for real-world scenarios.
- Explored human-computer interaction principles with emphasis on UI design, usability testing, and accessibility standards.

INTERNSHIP EXPERIENCE

IT Intern | Jun 2025 – Sep 2025
Mupepetwe Engineering and Construction Company [MECCO], Serenje

- Maintain and troubleshoot company IT infrastructure including hardware and software systems.
- Collaborate with senior developers to build and test software applications in line with industry best practices.
- Implement and test backup solutions to ensure data recovery and business continuity.
- Provide first-line technical support to staff, improving response time and minimizing downtime.

PROJECTS & ACHIEVEMENTS

Laisheni MU — Mulungushi University

- Co-developed a local web application enabling Mulungushi University students to locate and purchase groceries from nearby vendors. Accessible at laisheni.web.app.

Active Directory & RDS Setup — Mecco

- Collaborated with a supervisor to configure an Active Directory and Remote Desktop Service (RDS) environment, enhancing network management and remote access capabilities.

AI-Based online and Television Content – Final Year project

- Developed an AI-powered system that converts visual content into audio descriptions, enhancing accessibility for visually impaired users and promoting equal access to information.

Campus Laptop Repair Campaign — Mulungushi University

- Led a volunteer initiative with colleagues to diagnose and repair multiple student laptops, improving campus-wide device availability.

ELECT Company Website — Final Participant

- Contributed to the development of a company website at Mulungushi University; my team and I managed to reach the finals. Live site: elect-project-d4c29.web.app.
